

ALESSANDRO GALANTI

ANGELO

Alessandro Galanti

The experience gained in processing the material becomes the starting point for exploring himself and his art. Living in Milan, the international capital of design, gives rise to new ideas: the wish of making art affordable, functional and usable. As usual, inspiration comes to life from the observation of nature and from a deep reflection around it: we recognize the shapes and fibers of flowers and plants which, thanks to the finest goldsmith traditions and techniques, transcend their material to become precious textures of unique handcrafted creations.

Thus was born LUX, a project that combines art, design and technology and offers a collection of rechargeable cordless table lamps made with semi-precious materials and 24kt gold plated metal. The light and gold, thanks to the different angles of refraction, ensure that the object is always alive and changing and, in some way, always new.

Angelo 2021

Born in 2017 as a luminous artwork powered by main, today it becomes, thanks to advanced technology, a rechargeable, battery-powered cordless table lamp that offers up to 24 hours of autonomy.

Placed on a side table or used as an ambient light, the dimmable lamp, with a 3W high-tech LED, allows you to create shades of light and shadow, decorating every corner of your room.

Angelo is available in two sizes, S and L to best suit your home and create the right atmosphere with a simple touch.
