

ALESSANDRO GALANTI

STELLA POLARE

Alessandro Galanti

The experience gained in processing the material becomes the starting point for exploring himself and his art. Living in Milan, the international capital of design, gives rise to new ideas: the wish of making art affordable, functional and usable. As usual, inspiration comes to life from the observation of nature and from a deep reflection around it: we recognize the shapes and fibers of flowers and plants which, thanks to the finest goldsmith traditions and techniques, transcend their material to become precious textures of unique handcrafted creations.

Thus was born LUX, a project that combines art, design and technology and offers a collection of rechargeable cordless table lamps made with semi-precious materials and 24kt gold plated metal. The light and gold, thanks to the different angles of refraction, ensure that the object is always alive and changing and, in some way, always new.

Stella Polare

This beautifully simple rechargeable table lamp is crafted from Olive and Ebony wood and finished with a sphere diffuser made in 24 kt gold plated metal. Made from high-quality materials and engineered to endure, Stella Polare is specially designed to add natural elegance and beautiful mood lighting to your living space and venue. Lasting up to 24 hours (Lowest brightness setting) this lamp is guaranteed to last night after night, year after year, radiating a comforting, ambient light that isn't too soft or overpowering. Thanks to our upgraded 3W LED the lamp is bright enough to create a soothing atmosphere, yet dim enough to be used as a book light..

Tech Spec

Materials:

24kt gold plated metal,
Olive and Ebony wood

Stella Polare

Total power: 3 W
Touch dimmer
Push dimmer
USB-C recharge
Sphere Ø 110 mm

Many Finishes

→ Wood base

→ Sphere - 24kt gold plated metal
Fiber | Lotus

Light Technology is Key

- USB – C
- Touch dimmer with 4 brightness levels
- Push dimmer
- Up to 3 W
- Night lighting
- Up to 24 hours of autonomy
- 6 hours fast charge

Stella Polare				
Brightness	6%	30%	70%	100%
Battery autonomy	24 hrs	18 hrs	13 hrs	10 hrs
Night lighting	6%
